

Care and Maintenance Guidelines

Care and Maintenance Guidelines

Anodised Aluminium	Can be cleaned with a damp cloth, stubborn sugar coated stains should be removed with a mild detergent and then cleaned dry with a dry cloth.
Powder Coated Surfaces	Powder coated components are pre-treated with alochrom for added durability. Can be cleaned with a damp cloth, stubborn sugar coated stains should be removed with a mild detergent.
Solid Core Laminates	May be cleaned with a damp cloth or any standard mild detergent and then polished with a soft cloth. In case of surface damage table tops are double sided and can be flipped over.
Leather & Vinyl	Cleaned with a damp cloth, stubborn stains to be removed with a mild detergent and then finished with a dry cloth or upholstery cleaner. Always test of a small unseen area first.
Chrome	Cleaned with a damp cloth, stubborn stains to be removed with a mild detergent and then finished with a dry cloth. Can be polished using metal polish and a non abrasive pad.
Moulded Polyurethane	Cleaned with a damp cloth, stubborn stains to be removed with a mild detergent and then finished with a dry cloth. Can be steam cleaned if required.
